Statement

The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional.

The Filing Receipt was filed in the application file without noticing that the Notice to File Missing Parts form was enclosed with and behind the Filing Receipt, all papers being folded together in one mailing from the PTO. The Notice to File Missing Parts was therefore undetected and unintentionally filed in the application file without being docketed on our deadline control system for a response. Applicants recently learned of the mistake when reviewing the U.S. file in connection with a paper received in the corresponding PCT application.
